

## installation instructions

100/150 linear LED surface mounting

100/150 linear LED suspension mounting

SM100L-LED

SP100L-LED

SM150L-LED

SP150L-LED

## SM100/150LDL - (mm); SP100/150LDL - (mm)

- All linear fluorescent luminaires require support from above as shown, two supports per luminaire.

- Mains power supply to enter through the top hole.

### SURFACE MOUNTING to be installed in the 5.5mm hole

### SUSPENSION MOUNTING to be installed on steel wire

- Wire mains voltage cable into spare socket provided.

- The final 5-pole socket should have the provided black isolator cap attached for electrical safety.

- ⚠ Ensure all mains power is switched off at source.
- ⚠ Do not attempt installation or maintenance on electrically live product.
- ⚠ Installation and maintenance to be carried out only by a qualified electrician or electrical contractor.
- ⚠ Ensure correct polarity.  
(Red/Brown/24Vdc is positive/LED+, Black/Blue/GND is negative/LED-)
- ⚠ Please be advised that this install requires two people
