

V Cove - Concealed Vertical Illumination

WG VBC-RPT, WG VBC-RBT

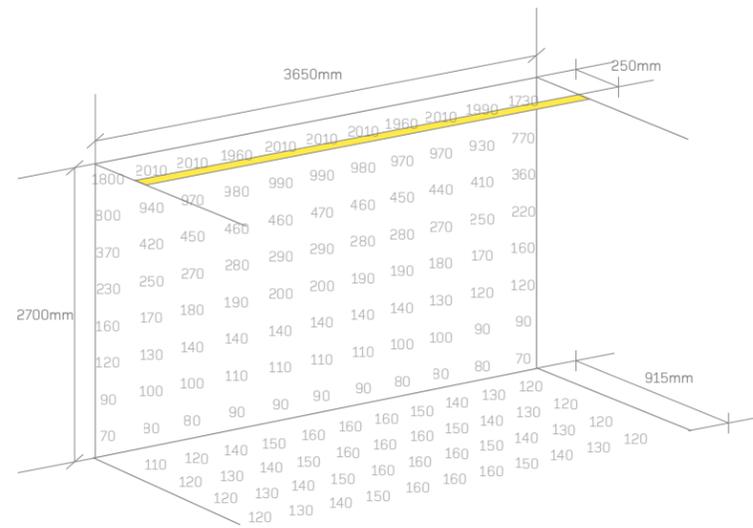

The V Cove is a perimeter slot luminaire which delivers light down the surface of the wall from a minimal slot width.

The leading edge of the profile creates a super crisp finish to the detail and the ceiling, concealing the luminaire in the pocket above.

This luminaire is ideal for creating a focal wall within a space, delivering a strong, evenly graduated wash of light from a relatively small aperture. It is worth noting that it can also be used in other orientations.

2700mm Ceiling, 250mm Offset

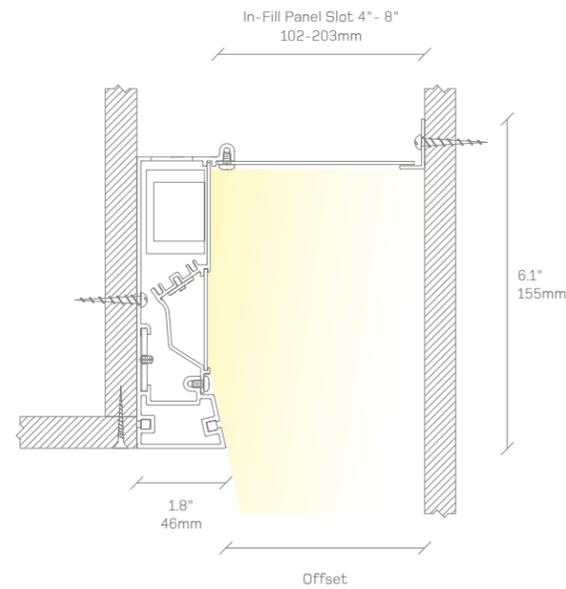

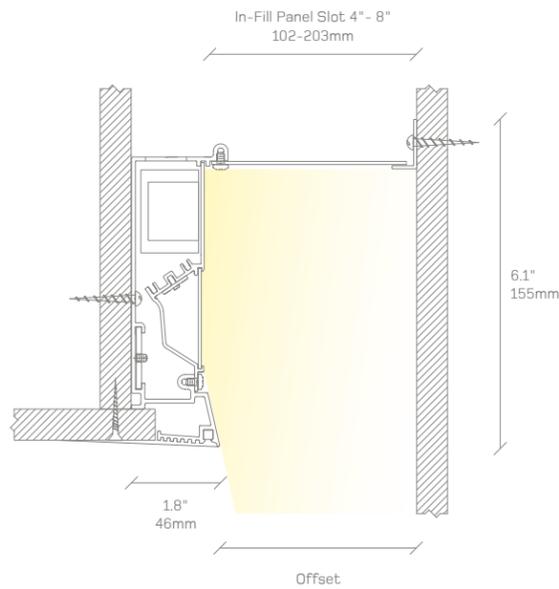

These diagrams indicate light levels to be expected on the wall and floor when using these luminaire types at various distances from the wall.

This page shows what we feel are the optimum offsets for the ceiling heights as shown.

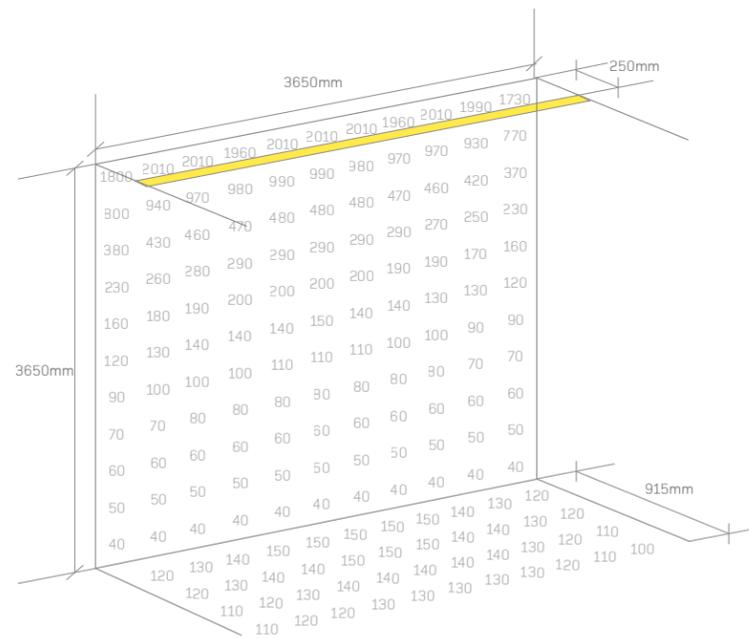

Mounting and Recommended Spacing

Option 1 Plaster Trim

Option 2 Bezel Trim

3650mm Ceiling, 250mm Offset

Values in Lux

Calculated on the following basis:

Reflectances	Maintenance Factor	LED	Diffuser
Ceiling 70%	1.0	2270lm/m*	Snap in Satin
Walls 50%		3000 Kelvin	
Floor 20%		90 CRI	

Note*

Paint out all internal surfaces of cove in matt white.

Offset

Typical Offset 150mm
Optimum Offset 250mm
Minimum Offset 100mm

Vertical Cove
Plaster Trim, Bezel Trim
